

Technical Commercial Data Sheet
Extendable workbench WB 704

- **Workbench extendable on two sides**
- **Robust structure developed to guarantee excellent flatness even at maximum extension**
- **Modular composition for easy assembly and disassembly**

Closed bank

Open bank

Pneumatic lifting

The pneumatic lifting rotating bench is equipped with a foldable arm to reduce space requirements when not in use.

Assembly of gaskets and accessories

The rotating bench can be used both for the assembly of gaskets and accessories on window frames and for the processing of composite panels with the aid of Oemme portable punching machines.

Technical Commercial Data Sheet **Extendable workbench WB 704**

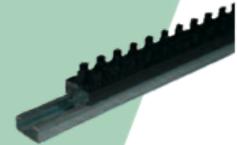

Interchangeable support surfaces suitable for assembling aluminium, PVC and wooden frames

Scratch-resistant and non-slip black rubber (standard)

Polyzene strips (on request)

Strip brushes (on request)

Technical features

- Structure in folded sheet metal and extruded aluminum profiles with height-adjustable feet and directional wheels
- Scratch-resistant and non-slip black rubber for frame support
- Maximum load: 80 kg/m²
- Closed bench dimensions: 1160 mm (a) x 2500 mm (b) x 900 mm (c)
- Open bench dimensions: 2600 mm (a) x 2500 mm (b) x 900 mm (c)
- Weight: 70 Kg

Standard equipment

- Pneumatic system with provision for the connection of 4 tools
- Central sheet metal container for storing accessories and tools
- Provision for the application of 2 rotating benches at the ends
- Provision for mounting strip brushes or polyzene strips
- Assembly instructions in your language

Accessories on request

- Revolving bench
- Strip brushes
- Listelli in polizene
